# Express your outer feelings. Start with the right color.

When it comes to how your siding presents itself, color is crucial. So we pay attention to what's trending and what works. Choosing your own colors can be fun, but a bit overwhelming. If you need a nudge, get ideas and tips from our color combination tool at [RoyalBuildingProducts.com/RoyalColorCombos](https://RoyalBuildingProducts.com/RoyalColorCombos).

## Combine shades to amp up your curb appeal.

We develop our colors to keep their eye candy promises, no matter which ones you choose. How you organize and mix those colors can have a tremendous effect on the curb appeal of your Portsmouth™ Shake & Shingles Siding.

Looking to add depth to a lighter featured color? Complement it with a deeper blue or tan in the porch area. Also, play with darker shades in windows and trim to add a flash of personality. If you're using a deeper shade in the main area of your exterior, add a more neutral color in the gables to bring the natural world into the color scheme.

D7 and S7 available in all colors.  
D5 only available in White, Sterling, Sand, Harvard Slate, Pebble Clay, Cypress, Storm and Toasted Almond.  
Half Rounds only available in White, Linen, Sand and Pebble Clay.  
Hand-Split: See Royal® Product Directory for color availability.  
Actual siding color may vary slightly from printed brochure.

# Color + Design

## Speak Volumes

Choosing the exterior that hits home comes down to the personality you want to project and using different style elements to communicate that personality. Color can set endlessly shifting, memorable moods and has a big say in the curb appeal conversation. These examples show how much you can differentiate by varying color and texture.
